Denver, Colorado 80246-1530

Re: Compliance Advisory - Operator Certification  
Alexan Cherry Creek, COG315342

Dear Ms. Beebout:

On Behalf of Cook Street, LLC, Terracon is responding to the March 31, 2017 Compliance Advisory – Operator Certification for the Alexan Cherry Creek project site. The Alexan Cherry Creek project site is currently discharging groundwater to the Cherry Creek under the Remediation Activities Discharging to Surface Water, Permit Number COG315000 with Certification Number COG315342.

Cook Street, LLC is currently not operating a wastewater treatment facility based on the laboratory analytical results from weekly effluent discharge monitoring being done for the permit. Prior to commencing effluent treatment, if needed, the CDPHE will be issued the required Operator in Responsible Charge (ORC) information.

If you require additional information, please contact Mark White at (303) 454-5208.

Sincerely,  
**Terracon Consultants, Inc.**
